JAIPUR – THE MODERN JAMSHEDPUR OF ODISHA

Jaipur, the steel City of Odisha is an upcoming location in terms of growth and development. With the industrial hub of Kalinga Nagar rapidly transforming the demography of the region, a draft Comprehensive Development Plan (CDP) for Kalinga Nagar Development Authority (KNDA) has projected an investment of Rs 66,139 crore for developing the areas into a modern industrial city. It is already the seat of many industrial plants like Tata Steel, Mesco, Neelachal Ispat, Maithan, VISA Steels and Jindal Stainless Limited.

The state government has also identified 5,000 hectares to set up a National Investment and Manufacturing Zone at Kalinga Nagar Industrial complex in Jaipur. The four laning work of Jaipur-Duburi road, considered to be the lifeline of the Kalinganagar area has already started.

The CDP prepared by Rolta India proposes comprehensive infrastructure development from roads, water resources, housing, health, education and

other state-of-the-art amenities to sustain the growing population.

The commissioner-cum- secretary, steel and mines department, Odisha government, has been asked to identify the required land to develop airstrip at Jaipur, as Kalinganagar has emerged as a major industrial hub of the state. An airstrip is required to improve connectivity to that area.

East Coast Railway (ECoR) has drawn up a plan to improve the infrastructure of the Jaipur-Keonjhar Road railway station, as Kalinganagar located in Jaipur district is poised to be the steel hub of the nation, attracting investments from leading domestic steel makers.

The total investment in Odisha is over 310 crores and reflects the optimism of the Sureka and Merlin groups in the future of the state. The Sureka and Merlin Groups are well established players in West Bengal with over 50 years and 20 million sq ft. of experience

in residential, commercial, retail and hospitality.

Springville Homes is developed by two of the most credible names of real estate in Eastern India – the Sureka Group and the Merlin Group.

SUREKA

The Group's success depends upon a clear vision of where Sureka can make a significant and differentiated contribution that its customers can value. Sureka's people provide the Group with the cutting edge. For sustainable success, their performance orientation and customer focus is imperative. Run by a team of professionals, the Group is also known for its involvement with educational, cultural, social and philanthropic organisations.
